

SPECIFICATION OF IR HEATING SYSTEM.

Quartz IR Heating Module – Special,

1500W @ 240V, SW.

Consists of

Air-cooled MS powder coated enclosure,

Quartz IR Lamps, 500W @ 240V Qty – 03 nos

All internal heat resistive FG Coated wires terminated in connectors mounted on system.

And Mounting Brackets.

Overall Sizes in mm: - 300(L) x 100(W) x 150(D) approx.

Max. Heated Area Coverage: - 127mm(L) x 100mm(W).

Control Panel For IR Heater.

MS Powder coated wall mounted cabinet consists of

Mains ON Rotary switch,

Indicating lamps, 'POWER NO' 'HEATER ON',

SSR with Heat sink,

Manual Thyristor Power Controller with POT

And frequency to voltage converter (interface) card with encoder for interlocks.

Overall Sizes in mm: - 350(W) x 300(H) x 200(D) approx.
